What We Offer

As a part of Transformation Services – **Finley Technologies Pvt Ltd** has expertise in providing a 360-degree Support of IT Infra, Telecom Infra Security Infra & Power Infra Solutions. You will benefit from our years of experience in developing consulting and supporting expertise.

Managed Services

We have considerable expertise in offering Managed Services, and that covers infrastructure, security, and application in IT services. We offer flexible IT staffing to manage IT operations in a standalone or comprehensive manner.

1. **Network, Security & Storage Management** -As your company grows, managing IT security, networking, and data storage become cumbersome. You need reliable and skilled staff to handle these crucial operations. Try our IT outsourcing services to ensure these are taken care of.

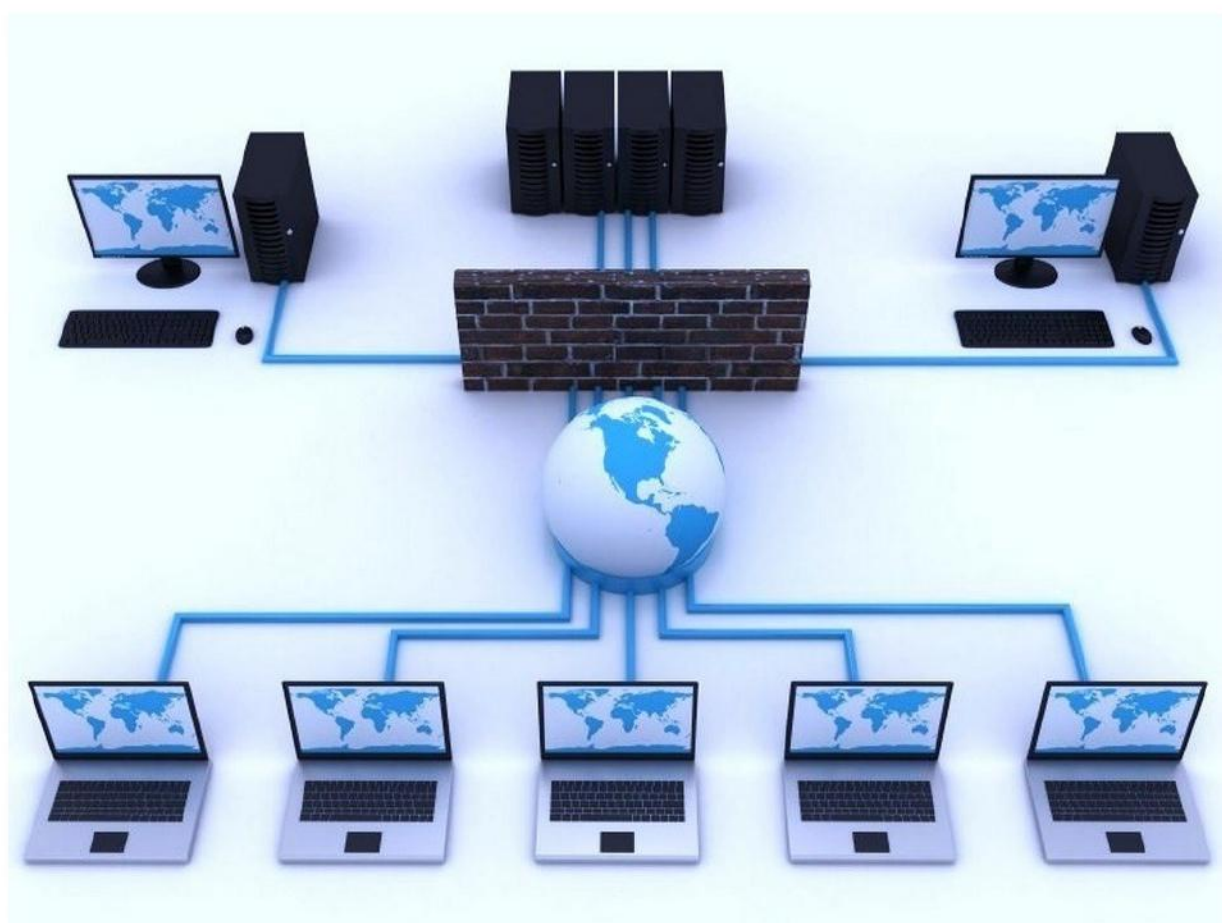

FINLEY

2. Data Centre Services- Running and maintaining the data centre of your company needs very high security protocol to be maintained. From security to backup, everything needs to be error-free. Typical IT staffing companies India may not fit the bill. Count on NTS for Datacentre management, anywhere.

3. Application Management & Maintenance – Apps for everything whether convenience of transaction or maintenance of records or tracking staff and inventory. Expertise can design, develop and maintain apps with the latest UI/UX features to cater your business needs. Apps can be developed and maintained by your organization through contingent workforce or what we commonly call temporary IT Staffing.

4. End-User Support Services-Typically, the companies making software, gadgets, and networking products and solutions need to offer support to the end-users. It makes sense to outsource this task to skilled staff who can support you on Voice and Non voice services. Rely on our IT outsourcing services to ensure the supply of apt end-user support staff.

Why Choose Us

Because our priority is you

Finley Technologies Pvt Ltd - Endeavoring to provide the best IT solutions and IT Hardware Services to the industry. The credit for the same goes to the organizations. Commitment to serving the industry in the best possible way by delivering value-added services to the clients. In tune with the Organization's philosophy are its highly motivated employees who believe in giving their best in whatever project IT Solutions & Services undertake.
